OBJECTIVE

B.Tech graduate in Artificial Intelligence & Machine Learning. Experienced in computer vision, NLP, and full-stack development with 6 shipped projects across ML and web. Seeking a full-time AI/ML Engineer role to build and deploy production-grade machine learning systems.

EDUCATION

Mangalam College of Engineering

BTech in Artificial Intelligence And Machine Learning

Principal League Awardee (2022-23, 8.41 CGPA)

Kottayam, Kerala

2022 – 2026

Army Public School [CBSE]

12th Percentage: 82.2%

Kannur, Kerala

2020 - 2021

EXPERIENCE

Python Developer Intern

Feb 2026 – Mar 2026

- Shipped 4 Python desktop apps and automation scripts within a 2-month AICTE-certified internship, receiving commendation from the program coordinator for code quality and delivery.

PROJECTS

Kidney Tumor Detection Web App | *Python, Streamlit, Keras, Grad-CAM*

May 2025 – May 2026

- Achieved 92% classification accuracy across 3 tumour classes by training a ResNet50 ensemble on DICOM CT scans with automated CLAHE preprocessing.
- Generated Grad-CAM diagnostic heatmaps via Streamlit, enabling clinical staff to interpret AI predictions without ML expertise, cutting report time by 70%.

Finance Manager | *Next.js 14, TypeScript, TanStack React Query, Tailwind CSS*

May 2026 – June 2026

- Reduced client-side re-fetch requests by 60% via TanStack React Query caching; achieved WCAG AA contrast compliance across light/dark modes.
- Eliminated backend configuration for contact forms using FormSubmit.co; delivered automated spreadsheet ingestion and real-time debt tracking.

Career Guidance Chatbot | *Python, Streamlit, Pandas*

Jan 2025 - Apr 2025

- Mapped student profiles against 100+ career paths using a Pandas NLP engine; deployed via Streamlit, reducing manual counselling time for repeat queries.

Home2Work - Vehicle Hiring Platform | *TypeScript, Next.js, CSS*

Feb 2026

- Built a responsive multi-page coach hire platform with dark mode, dynamic components, and serverless contact form delivery via FormSubmit.co.

SKILLS & INTERESTS

Languages: Python, C, MySQL, HTML/CSS

Developer Tools: VS Code, Visual Studio, Cursor

Soft Skills: Leadership, Teamwork, Communication Skill

LEADERSHIP EXPERIENCE

Under Officer in National Cadet Corps [NCC]

2022 - 2025

CERTIFICATIONS

District Winner, Young Innovators Programme 7.0: Honored by K-DISC for excellence in the Assistive Technologies and Wearables category.

Python Specialization: Successfully completed a comprehensive Python programming course via Kaggle to strengthen core data science foundations.

Self-Driving Electric Vehicles: Completed an intensive technical workshop organized by Techmaghi in association with Kshitij, IIT Kharagpur, focusing on autonomous EV technologies.

Generative AI (Gen-AI): Participated in a specialized IEEE webinar exploring the emerging landscape of Generative AI and its industry applications.
